Why upgrade to Tally.ERP 9?

POWER OF SIMPLICITY

You have been using earlier versions of Tally (4.5/ 5.4/ 6.3/ 7.2/ 8.1/ 9) and we trust our product is adding value to your business. We are happy to inform you that Tally.ERP 9 is the latest offering from Tally. The technological advancements offer more power, flexibility, and increased security by making your business data available from anywhere. Enhancements to statutory features help your business with continuous compliance.

Following are some of the reasons why you should upgrade to Tally.ERP 9:

Tally.ERP 9 can handle more transaction capacity per day with greater speed. Technological advancements will allow you to do more with lesser time. Availability of information in real time helps you and your business teams to make decisions quicker. Save time and cost involved in continuous compliance by receiving expert advice from your Chartered Accountant on demand.

Tally.NET
This technology powers the following capabilities through the Internet and also delivers a variety of special services to help your business:

Remote Access:
Have you imagined the control you will have on your business if you could stay connected to your business data from where ever you are and when ever?

Tally.ERP 9 powered by Tally.NET technology enables you to stay connected with your business anytime and from anywhere. Your traveling sales staff can check inventory status before booking an order. You can also allow your Chartered Accountant to access your business data remotely, to audit and provide professional advice sitting from his office and more. Your business does not have to wait while you are traveling, at home, or on a holiday.

Control Centre:
You can manage your Tally.ERP 9 license on your own (surrender, re-activate, etc) and also easily distribute a variety of special services to help your business. If you have multiple sites, then implementation of customisations etc is a one time activity. You can centrally deploy the customisations to be effected on all/ few sites as per your requirement.

Integrated Support Centre:
You can now report issues through Tally.ERP 9 and get inputs from Tally, your service partner, and even your Chartered Accountant. The status of these queries can be tracked and archived too. You can mark issues as closed or reopened. You will have complete visibility on all your past, present issues that are open or closed.

Why upgrade to Tally.ERP 9?

Tally.ERP 9 is probably the only product in the world where:

- There is complete three-way visibility of issues/queries for the user, support provider and the software developer.
- Issue entry and tracking are done from the product itself.
- Customer has visibility of issue status through the product, even to those which are raised over the phone.
- Customer has complete control over issues which are getting closed

Payroll

Payroll module has been enhanced to help you compute your company's pay slips, arrears calculations, ad-hoc payments, leave encashments, reimbursements and management of taxes more efficiently. You can also manage all salary deductions, including Provident Fund through the enhanced payroll module of Tally.ERP 9.

Payroll Statutory Reports

Almost all the PF, ESI and Professional Tax forms and reports that are needed to be submitted to the authorities are now available in Tally.ERP 9.

Statutory

The powerful compliance features of Tally.ERP 9 simplify tax computing, information maintenance and generation of returns and forms. State specific Value Added Tax, Tax Deducted at Source, Service Tax, Excise for Manufacturer, Excise for Traders and electronic filing of return is made easy with Tally.ERP 9. Corrections of errors or wrong entries can be changed to ensure complete and continuous compliance.

Excise for Manufacturers

Excise for Manufacturer in Tally.ERP 9 can handle statutory and business requirements in a simplified manner.

Tally.ERP 9 will take care of the following:

- Multiple types of excise duties (Basic, Special, Education Cess etc.)
- Multiple ECC numbers for a single company (A company can have multiple registered excise godowns and can also trade in excisable goods)
- Multiple valuation methods (like Ad valorem, Transaction Value, Value Based on MRP, Ad quantum etc.) all of these, if required, in the same invoice!
- Flexibility to have different unit of measures for excise reporting and recording transactions.
- Avail CENVAT credit
- Payments to Central Excise

- Keeping statutory records, reporting and returns.
- Sequential numbering for excise invoices even across different voucher types – for example across invoices and debit notes – (as per excise rule 11)

E-VAT

Tally.ERP 9 now enables you to electronically file your VAT returns, using the Internet.

Direct IP Sync is now free

From Tally.ERP 9 onwards, the Direct Client and Direct Server capability for Synchronization through private network (also referred as IP Sync) is a default feature available in the product. The process for Data Synchronisation remains the same while doing the Sync using Direct – Client and Server capability (or IP Sync).

Tally.ERP 9 gives you the power to synchronise business data between two Tally.ERP 9 single users.

Tally.ERP 9 - Auditors' Edition

Tally.ERP 9 extends your enterprise further. You can now leverage the deep domain and statutory expertise of the Chartered Accountant community. Your Chartered Accountant, who has installed the Tally.ERP 9 - Auditors' Edition can access your Tally.ERP 9 data from anywhere, using the remote capability, provided you have given him the permissions to do so. This results in continuous audits so that your company stays continuously compliant, business process outsourcing, receivable and payable support, sales force augmentation, business process optimization and so on… opening up your business to take advantage of the many advisory & profesional services that can now be remotely offered at affordable costs.

Special Features of the Tally.ERP 9 - Auditors' Edition

The Tally.ERP 9 - Auditors' Edition will enable your Chartered Accountant to compile information, form an opinion and print the required reports for Tax Audit and Statutory Audit. As per Section 44AB, the following Annexure to Form3CD can be generated:

- Bonus PF, ESI Recoveries (Clause 16)
- Amounts inadmissible u/s 40A(3)
- Clause 18 Payments to Specified Persons
- Payments u/s 43B (Clause 21)
